

Client Engagement System Proposal

Purpose

A centralized platform that helps us manage client relationships, monitor ongoing activities, and provide clients with clear visibility into project progress and updates.

Objectives

- Improve communication and transparency with clients.
- Track all client interactions and engagement in one place.
- Monitor project progress and assigned tasks.
- Provide clients with a secure dashboard to view updates and important information.

Core Features

- **Client Dashboard:** Dedicated workspace for each client.
- **Activity Tracking:** Record meetings, calls, emails, and updates.
- **Task Management:** Assign, monitor, and track client-related tasks.
- **Progress Updates:** Share milestones, completed work, and ongoing activities.
- **Documents:** Store and share project files and reports.
- **Notifications:** Inform clients about new updates, meetings, and deadlines.
- **Reporting:** Generate engagement and project progress reports.

Expected Benefits

- Better client experience through transparency.
- More organized project and communication management.
- Improved follow-up and accountability.
- Stronger long-term client relationships.
- Increased operational efficiency for the consulting team.
